

# RG730

Sharp enough for the office, tough enough for an industrial site, the versatile RG730 provides military-level protection against falls, vibration, humidity, air pressure and temperature variations. IP68-resistance to water and dust ensures it works perfectly, whatever the conditions.

## Instacom Platforms:

The RG730 offers more when utilising this model within the Instacom platform. This rugged phone has more screen to work with and means that you may activate more comprehensive Instacom services.
