

# INS DISPATCHER

•• Mission Critical  
•• Dispatch

The Ins Dispatcher, is a multi-session dispatch console that serves as a command and control center for the management of mobile staff and remote workers in various industries. It provides controllers with wide-ranging functionality that enables individual and group communications, emergency (SOS), assistance, location monitoring, and more. The Ins Dispatcher is used to communicate to the Instacom PTT mobile users and monitor the same with the Locate and Alert services.
